

HAVE YOU HEARD?

ENSTAR has filed for a Gas Cost Adjustment (GCA) with the Regulatory Commission of Alaska (RCA).

The GCA is the price ENSTAR customers pay for gas based on Gas Supply Agreements approved by the RCA.

If approved, the gas cost will change from \$0.82416 to \$0.79204 per CCF, which represents a 3.9% decrease to the average residential annual bill.

The new price will be effective on your July billing. For more information on the GCA, see ENSTAR's website: www.enstarnaturalgas.com.

The **GCA** is one of four charges that make up your monthly bill. It is often referred to as a "pass-through" charge since you pay exactly what ENSTAR paid to producers for the gas.

The **CUSTOMER**, **SERVICE**, and **RCC** charges are the other three parts of your bill. While the Customer Charge is a flat fee, the Service and RCC charges are based on the amount of gas you used that month.

Current Activity		
	ENSTAR Customer Charge	17.00
	ENSTAR Service Charge (Base) 77.00 ccf @ .154360	11.89
	Regulatory Cost Charge (RCC) .320000%	0.30
	Total ENSTAR Charges	\$29.19
	Supplier Gas Cost Charge (GCA) 77.00 ccf @ .824160	63.46
	Total Supplier Charges	\$63.46
	Current Gas Charges:	\$92.65

Additional information on monthly bill can be found at: www.enstarnaturalgas.com.

REMEMBER!

Whether it's installing a fence, planting a garden, or removing a tree stump, remember that every digging project requires a call to 811. Call at least two days before starting the project to get free locates of your underground utility lines.

**Know what's below.
Call before you dig.**

Failing to call 811 is one of the main causes of pipeline damages. Every time a pipeline is damaged the safety of your family and neighbors, along with yourself, is put at risk. It's never too early to teach the importance of calling 811! Enjoy using this color-by-number to teach kids in your home about safe digging.
